

"...THIS SHOULD BE ON YOUR RADAR"

2016 SALSA

Not your average rosé, in some ways. Certainly in varietal make-up. Grenache, mataro and montepulciano are the varieties employed.

It's good too. If you're looking for a rosé to buy/drink, this should be on your radar. It gives you fruit, all strawberried and redcurrant-like, but it's also slipped with dry spice, campfire and slate-like notes; it keeps you happy through the mid-palate but it then finishes exquisitely dry. Ripper rosé.
